Frozen fruit makes smoothies extra thick and creamy. If you don't like icy cold beverages, use fresh fruit instead. Experiment with a variety of juices and fruit, depending on what is in season.

Ingredients

Makes 2 Servings

- 1 frozen or fresh banana, broken into chunks
- 1 1/2 c (350 mL) unsweetened fruit juice, any kind
- 1/2 c (74 g) sliced fresh or frozen unsweetened fruit or berries
- 1/2 c (123 g) plain, vanilla, or fruit-flavored soy yogurt

Directions

1. Combine all ingredients in blender and process until very smooth and creamy. Serve immediately.
2. **Tips:** With a few ripe bananas in your freezer, you can always create a quick breakfast smoothie. Simply peel bananas, place them in plastic bags, and store in the freezer. They will last for several weeks, depending on your freezer's temperature. To make your smoothie extra creamy and give it a healthy protein boost, try adding a little powdered soy milk or protein powder prior to blending.
